Topic / Issue: Resetting the WLF2454AP-S to factory default

Written By: Scott Young

The following technical page will explain the procedure to reset the access point to factory default settings.

- 1) Leave the power to the access point connected and hold down the reset button on the back of the unit for 10 seconds.
- 2) The access point will now reboot and will contain the default configuration as shown below:

IP Address: 192.168.1.1

Subnet Mask 255.255.255.0

Username: blank (no username)

Password: admin

Summary:
(If required)
