3CX®
Software PBX for Windows

BREAK FREE

From Your Outdated Phone System

REDUCE YOUR COSTS
INCREASE YOUR PRODUCTIVITY AND MOBILITY
WITH 3CX PHONE SYSTEM FOR WINDOWS

Move to 3CX Phone System - an open standard Windows-based IP PBX that provides superior features and flexibility at a far lower cost.

- Lower call costs and globalize your business by making use of worldwide VoIP providers and bridging your offices for free inter-office calls.
- Increase mobility by allowing employees to take their extension with them wherever they go.
- Improve productivity with office-wide presence and desktop call control.
- Eliminate expensive telecom consultants with an easy to use web -based PBX console.

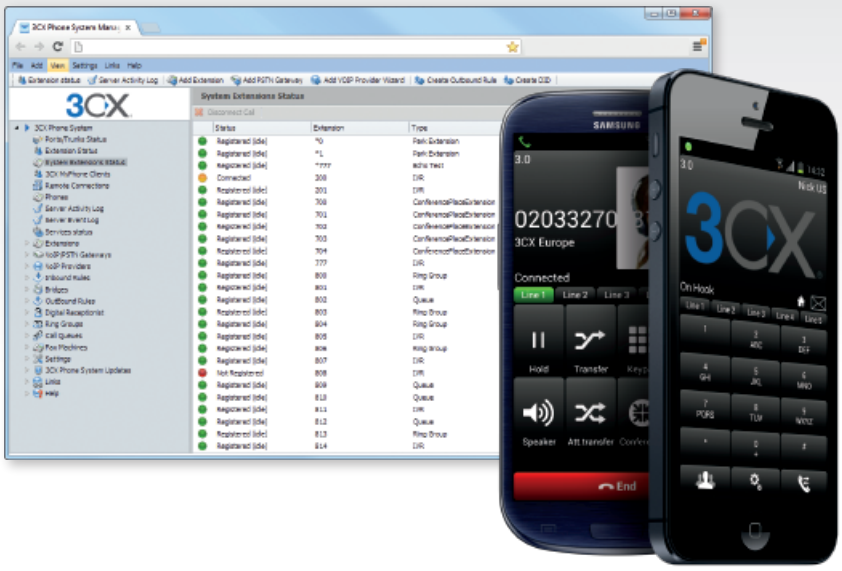
3CX Phone System completely replaces a hardware PBX without the need for additional phone wiring. It supports popular SIP phones, VoIP providers, and traditional PSTN lines. The 3CX Phone System web-based management console makes it easy to configure, eliminating the need for expensive maintenance.

10 Advantages of 3CX Phone System

1. Easy to manage by an IT administrator
2. Costs less to buy and expand
3. Greater return on investment
4. Use existing hardware and make huge savings
5. More features by leveraging Windows technologies
6. Hardware & vendor independent – no vendor lock in
7. Better fault tolerance through easy backup of your PBX
8. 3CX Phone System is more scalable than hardware PBXs
9. Better integration with other business applications
10. Easily build voice applications that increase productivity

How It Works

3CX Phone System runs on a Windows machine and connects to any SIP soft or hardware phones and iPhones or Android smartphones as extensions. External lines are connected using VoIP Gateways (keep your PSTN lines) or with a VoIP provider.



3CX Phone System Features

3CX MyPhone Makes Call Management a Breeze

3CX Phone System includes a client (available for Windows, iPhone and Android) that makes call control, conferencing and other unified communications features a breeze. Users can manage their extension and their calls with just a few mouse clicks and avoid using a cryptic phone interface. What's more, you can log in to 3CX from any computer or smartphone to see the status and presence of other users from your office and any bridged offices around the world.

Extensive Enterprise Level Feature Set

While traditional PBXs require additional hardware modules and maintenance to add new features such as auto-attendant and call queuing, they all come standard with 3CX Phone System. Additionally, 3CX Phone System integrates with popular CRMs such as SalesForce, Microsoft Dynamics and Sage ACT!

Increase Mobility – Take Your Extension Anywhere

3CX Phone System includes an iPhone and Android client that allows you to make and receive office calls on your iPhone or Android smartphone from anywhere. Save on telecommunications costs by making internal office calls free of charge, and keep your mobile number confidential by using the office caller ID. Never miss that all important call by answering calls made to your office extension from anywhere.
