

AS3010-P

10 Port Web Smart Gigabit POE+ Switch

- *Limited Lifetime Warranty*
- *Next Day Replacement**
- *Local Technical Support*

The Alloy AS3010-P Web Smart Gigabit POE+ Switch consists of 10x 10/100/1000Mbps Gigabit Copper UTP Ports and 2x paired dual speed 1000M/100M SFP Ports. With a comprehensive range of powerful Layer 2 features, the AS3010-P switch is ideal for businesses of all sizes.

All SFP Ports support both 100M and 1000M SFP modules allowing easy upgrade paths for existing cabling and network infrastructure.

The AS3010-P switch complies with both IEEE 802.3at and af Power over Ethernet standards. With all stand-alone RJ-45 ports supporting PoE+, devices such as IP Phones and Wireless Access Points can now be connected directly to the network with data and power supplied over a single UTP cable, reducing deployment and maintenance costs and making it much easier to install devices exactly where they are required. With support of 802.3at PoE+, up to 30 watts of power can be supplied per port, so power hungry devices such as Pan Tilt Zoom IP Security Cameras can be connected directly to the network.

The AS3010-P has an embedded Device Managed System (DMS) which provides users with complete control over their network connected devices. The AS3010-P is the ideal switch to deliver management simplicity, better user experience, and lowest total cost of ownership.

Key Features

- Web Smart+ features provide easy management, basic security and QoS
- Built in Device Management System (DMS)
- DHCP Server
- PoE Port configuration and scheduling
- IEEE 802.3af/at Power over Ethernet
- IEEE 802.3az EEE Energy Efficient Ethernet standard for green Ethernet
- Dual Speed SFP ports supporting both 100M and 1000M SFP Modules
- Limited Lifetime Warranty
