

# VoIP V3 Outdoor Intercom

**CyberData**  
The IP Endpoint Company

Newly designed with a faster processor allowing for more capabilities, and increased IP rating for weather protection, the CyberData SIP-enabled VoIP V3 Outdoor Intercom is perfect for settings requiring two-way communication and secure access. The new Weather Shroud (pictured) can be purchased separately for even greater weather protection.

The redesigned case is more secure and has a more streamlined look with increased tamper resistance. One of our most popular devices, the v3 Outdoor Intercom has been installed in nursing care facilities, schools and universities, daycare facilities, retail establishments, highway tolls, and more, proving this device is truly a versatile, cost-efficient alternative to old analog intercoms.

## New Features include:

- Faster V3 processor
- Increased IP RATING to IP64
- Now supports SRST (Survivable Remote Site Telephony)
- New streamlined case design
- Optional Weather Shroud (pictured) for even greater weather protection

## Features

- PoE 802.3af enabled (Powered-over-Ethernet)
