Yealink
easy VoIP

Ultimate Experience, Innovative Future.

The Yealink T4 series is intended for discerning users with very high expectations of IP phones. It has been designed specifically for people who take great satisfaction in experiencing excellence actually being delivered. Revolutionary in appearance and advanced technical design, the T4 series is not only pleasurable and practical to use but also offers up to 4.3 inch 480 x 272 pixels extra-large display screens that make pen and paper redundant in the busy office environment. In fact, the T4 series represents the cutting-edge of contemporary VoIP technology in action. Advanced features include support for gigabit networks, plus USB Bluetooth Dongle support for easy Bluetooth earphone use. Enhanced sound quality is delivered by the Optima HD Voice system which meets TIA 920 certification standards. In the T4 series, Yealink has set out to achieve the ideal marriage of perfection with performance.

Remarkable Quality and Design

Elegance in something that you use regularly is a necessity as well as a luxury - especially if it has been made specifically for you. The T4 series's revolutionary design applies not only to the quality of its telephony but also its extremely handsome look and feel. The finest materials have been used to ensure both high performance and an appealing metallic texture finish.

Gigabit Support

Gigabit connection speeds are coming! The SIP-T46G & SIP-T42G allows you to experience faster network performance than ever before. High-speed broadband services deliver swifter communications designed to keep you in constant touch with even more people. Businesses naturally want to make the most of their connections. The SIP-T46G & SIP-T42G has been designed with the specific aim of making full compatible use of expanding modern gigabit networks.

Optima HD Voice

Yealink T4 series IP Phone has passed all TIA 920 certification. Voice clarity makes good communication so much easier. Yealink's solution has been to develop the high-performance enhanced Optima HD Voice system. Yealink's aim is to ensure you many hours of easy listening.

*Pass TIA 920 Certification

Bluetooth Support via USB Port

The SIP-T46G IP phone provides USB Bluetooth connection portals that allow Bluetooth earphones to be used freely in the immediate office environment. Hands-free remote working combines convenience with comfort.
