About Procureit

We operate nationally, with plans to launch in NZ later this year

We build innovative & smart technologies and provide frictionless & cashflow efficient ways for businesses to pay their invoice

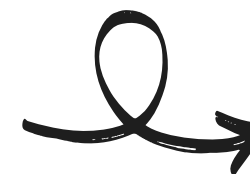

We focus on B2B transactions in Professional & Essential Services

Why Procuret

- Procuret identified that a large gap existed in the procurement of B2B products and services. Payment options to secure customer orders rapidly and maximise cash revenues are lacking for Suppliers.
- Resellers need pain free, fast & cash flow efficient ways to pay for situational or repeat purchases matching the value generated from the purchase with the term of payment.
- An opportunity existed to come up with innovative ways to solve these buyer and seller problems.

Procuret's Solution

Procuret has built an online 'Pay in instalments' option that allows Resellers and their Customers to purchase the products & services they need today and pay in predictable monthly instalments over time.

Alloy's Extended Term Solution

A swift & secure extended instalment term option available to Resellers on Alloy's EasyBuy platform or via a Procuret link found on Alloy orders.

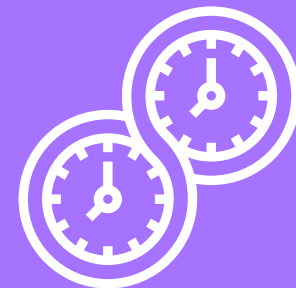

Resellers simply select Procuret as their payment option and receive an instant payment link via an email to finalise payment.

This works well for small purchases or when the Reseller revenue is collected outside standard trade terms

This works well for bulk purchases, larger and longer term projects or to match monthly recurring revenue with an instalment plan.
