- **4 Research and Development Centers**  
(Dallas, Los Angeles, Shenzhen, and Hangzhou)

# IP PBXs: UCM Series

---

## ***Enterprise Grade Features, Powerful Communication***

The UCM series provides a high-end unified communications solution with an ecosystem of mobility, security, video, and collaboration tools.

# Why choose an on-premise PBX?

- Running costs are generally lower over time rather than paying per extension
- Scaling up and adding additional extensions generally cheaper on an on-premise PBX
- Generally easier to build in redundancy for system uptime
- You own the PBX and can control how and what features are used
- Grandstream UCM's do not have license fees for PBX features or number of extensions

# UCM6300 Series – UC Appliance

Unified Communications and Collaboration Solution

NEW

- UCM6300 series supports up to 5000 users
- Built-in web meeting and video conferencing solution that enables employees to connect from desktop, mobile, GVC series devices, and IP phones
- Fully compatible with the UCM6300 Ecosystem for remote workers and administration
- Cloud configuration and management through GDMS

# UCM6300 SERIES – UC APPLIANCES

Unified Communications and Collaboration Solution

The UCM6300 series is comprised of 4 different models for any size deployment.

# GRP Series IP Phones

## ***Carrier-Grade IP Phones***

Next-generation IP Phones designed for mass deployment. This series features a sleek new design, a reimagined user experience, and many other advanced features.

# GRP2601/P – Essential IP Phone

## 2-Line Essential IP Phone

- 2 SIP accounts, 2 lines
- GDMS online device management and provisioning
- 3-way audio conferencing for easy conference calls
- Equipped with noise shield technology to minimize background noise
- Electronic Hook Switch (EHS) support for Plantronics, Jabra, and Sennheiser headsets
- GRP2601P includes built-in PoE to power the device and provide a network connection

**NEW**

# GRP2602/P – Essential IP Phone

## 2-Line Essential IP Phone

**NEW**

- 2 lines, 4 SIP accounts
- Supported by GDMS which provides a centralized interface to configure, provision, manage, and monitor Grandstream devices
- EHS support
- Full-duplex speakerphone with HD audio
- Noise shield technology to minimize background noise
- GRP2602P includes built-in PoE to power the device and provide a network connection
- Swappable faceplate for easy logo customization

# GRP2603/P – Essential IP Phone

## 3-Line Essential IP Phone

**NEW**

- 3 lines, 6 SIP accounts, up to 3 call appearances
- Supported by GDMS
- EHS Support
- Full-duplex speakerphone with HD audio
- Noise shield technology
- Dual switched auto-sensing 10/100/1000 Mbps Gigabit Ethernet ports with integrated PoE (GRP2603P only)
- Supports 4-way audio conferencing
- Swappable faceplate for easy logo customization

# GRP2604/P – Essential IP Phone

## 3-Line Essential IP Phone

**NEW**

- 3 lines, 6 SIP accounts, up to 3 call appearances
- Supported by GDMS
- EHS Support
- Full-duplex speakerphone with HD audio
- Noise shield technology
- Dual switched auto-sensing 10/100/1000 Mbps Gigabit Ethernet ports with integrated PoE (GRP2604P only)
- Supports 4-way audio conferencing
- Swappable faceplate for easy logo customization

# GRP2612/W/P

## Carrier-Grade IP Phone

- 2.4" color LCD
- 2 SIP accounts and 4 multi-purpose line keys
- Up to 16 virtual multi-purpose keys
- Dual switched auto-sensing 10/100 Mbps Ethernet ports
- HD audio and OPUS support
- Enterprise-level protection including secure boot, dual firmware images, and encrypted data storage
- Wi-Fi option with GRP2612W
- PoE option with GRP2612P

# GRP2613

## Carrier-Grade IP Phone

- 2.4" color LCD
- 3 SIP accounts and 6 multi-purpose line keys
- Up to 24 virtual multi-purpose keys
- Dual switched auto-sensing 10/100/1000 Mbps Gigabit ethernet ports with PoE
- HD audio and OPUS support
- Enterprise-level protection including secure boot, dual firmware images, and encrypted data storage

# GRP2614

## Carrier-Grade IP Phone with Dual LCD

- 2.8" color LCD
- 2.4" secondary color LCD for digital BLF/SD
- 4 SIP accounts and 4 multi-purpose line keys
- Dual switched auto-sensing 10/100/1000 Mbps gigabit Ethernet ports with PoE
- HD audio and OPUS support
- Integrated dual-band Wi-Fi
- Enterprise-level protection including secure boot, dual firmware images, and encrypted data storage

# GRP2615

## Carrier-Grade IP Phone

- 4.3" color LCD
- 5 SIP accounts and 10 multi-purpose line keys
- Up to 40 virtual multi-purpose keys
- Dual switched auto-sensing 10/100/1000 Mbps Gigabit ethernet ports with PoE
- HD audio and OPUS support
- Integrated dual-band Wi-Fi
- Extension module support
- Enterprise-level protection including secure boot, dual firmware images, and encrypted data storage

# GRP2616

## Carrier-Grade IP Phone

- 4.3" (480 x 272) color LCD, 2.4" (240 x 320) secondary LCD
- 6 SIP accounts and 6 lines
- 48 multi-purpose keys
- Dual switched auto-sensing 10/100/1000 Mbps Gigabit ethernet ports with PoE
- HD audio
- Integrated dual-band Wi-Fi
- Extension module support
- Enterprise-level protection including secure boot, dual firmware images, and encrypted data storage

# DEVICE MANAGEMENT

---

***Deploy and Manage  
Grandstream Solutions  
Centrally***

Grandstream complements its hardware solutions with centralized deployment, management, and troubleshooting systems

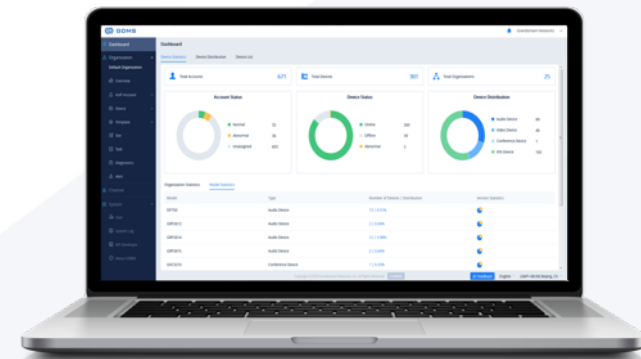

# GDMS

## Grandstream Device Management System

The Grandstream Device Management System (GDMS) is a zero-touch cloud provisioning and management system that provides easy-to-use enterprise-level tools to manage Grandstream products before, during, and after deployment. It provides a centralized interface to provision, configure, monitor, and troubleshoot.

- Configuration, management, and monitoring of devices, accounts, and firmware
- Real-time network monitoring; analytical system reports
- Can manage batches of devices by deployment sites, device groups and models within those sites
- Intelligent alarms, troubleshooting, and diagnostic reports
- Automate firmware updates, device resets, and use-logs

# GUV SERIES

---

## ***Personal Collaboration Devices***

The GUV series of Personal Collaboration Solutions provides a variety of powerful audio and video solutions that enhance remote communication and collaboration. They are designed to provide a powerful HD collaboration experience with all day comfort for remote workers, students, teachers, healthcare professionals, contact centers and more.

# GUV3000 & GU3005

## HD USB Headsets with Noise Canceling Mic

- HD audio for crystal clear and easy communication
- USB connection provides flexibility on any device with USB compatibility
- Noise cancelling technology to minimize background noise
- The GU3005 includes a busy light to indicate a call in progress
- Offers an adjustable headband, inline controls, and left or right wearing style
- Compatible with any USB device, supports third-party and Grandstream platforms, apps, and softphone

# GUV3050

## HD Bluetooth Headset

- HD audio for crystal clear and easy communication
- Bluetooth compatible and can be paired with up to two devices at the same time
- Noise cancelling technology to minimize background noise
- Integrated ring-shaped busy lights on both sides of the headset to indicate a call in progress
- Offers an adjustable headband, in-line controls, and left or right wearing style
- USB adapter and charging base station included

COMING SOON

# GUV3100

## 1080p Webcam

- Supports 1080p HD video at 30 fps
- USB2.0 port offers plug-and-play setup, no software required
- 2 built-in microphones offer a 1+ meter voice pickup range
- Compatible with all major third-party platforms, apps, and softphones
- Adjustable video settings include brightness, resolution, saturation, contrast, low-light, and more

# GUV SERIES

Compatible with most applications and collaboration tools

The GUV series offers peace of mind by being compatible with the major platforms on the market, including Grandstream's IPVideoTalk Meetings, Microsoft Teams, Zoom, Slack, Google, Cisco, 3CX, and more!
