Establishing a call

Please Note: The following table lists the default settings of the Call Routing table. Refer to your Quadro Administrator to see whether they have been customized.

If you need to use Direct Transfer to Voice Mailbox feature, please ask your administrator to make the appropriate configuration in the routing management.

Internal PBX call	Extension number
External PSTN call*:	
Through the first free line	9+ phone number*
Through the preferred line**	9*+line number*
In case of ISDN	9+ISDN number*
Emergency Calls (e.g. 911)	directly phone number without any prefix
SIP call to sip.epygi.com	8+SIP number
Auto Attendant services	0 0

Please Note: You may accelerate connection establishment by a pound (#) sign at the end of your dialed number.

*) The Quadro may be configured to use either 9 or 0 as PSTN access code.
