4. Added hotline to service center on GUI
5. Added an forward icon on the right top of LCD when forward is enabled, and long-press the icon for three seconds, you can go to the forward setting page.
6. Enabled to import/export contacts with xml-format
7. Enabled to convert CSV to XML with a converter
8. Supported importing and exporting contacts of xml format.
9. Added an option for the video refresh frame to be maintainable

2 Bug Fixes

10. Fixed the issue that would enable the screensaver and sleep mode automatically when playing the picture and video
11. Modified the password of PPPOE on GUI to be null-allowable conformably with WUI.
12. Modified the SRC NUMBER and DST NUMBER according to T2X series.
13. Fixed the issue that can set the tones and volume in the sound Setting on GUI with the left and right navigation key to adjust the volume and the up and down key to switch among the items.
14. Now "#" can be resolved as "#" or "% 23" via auto provision when dialing.
15. Change the icon in CALL HISTORY to be "i(information)".
16. In the date and time settings: if the time or date is less than 10, it will add 0 before the digit automatically; also the value can be replaced when it is fully selected.
17. Enabled to enter the setting page by long-pressing the customizable buttons
18. Added an up and down arrow in Call history, Directory and Time zone list(you are allowed fast moving by long-pressing the up and down key)
19. Optimized the issue that there are configurations on GUI but can not be configured on WUI. The following has been added to the WUI.
    (1) Call waiting, auto answer, key as send, Voice mail
    (2) Personalize   Call Option and Local video
20. Modified the limit to the input character in WUI to be the same as which in GUI.
21. Modified it to be that will return to idle after off hook on other interface
22. Fixed the issue that some problems occur when entering into SD card directory.
23. Made the group name "Black List" and "Anonymous" of the contact list of local phone book translatable with the selected language.
